The use of land in cooking again proved old-fashioned and expensive ANIMAL fat soaks up in the food when you cook with it. This is not only wasteful but it makes the food greasy and indigestible.

Mazola, the Great American Cooking Oil, is used so not it cooks the outside of the food jusckly. Hence it doesn't sonk into the 'ood—to anything near the extent of lard.

This fact was again demonstrated when Mri A' Louise Andrea, famous expert in mode n cookery, fried 25 4 lbs. of fish steaks in 2 lbs of Mazola same amount of lard fried only 16 2 lbs. The fish steaks were cut to an average thickness of one inch.

During the same series of experiments—which can be duplicated by anyona interested—Mrs Andrea fried 241/2 of potatoes in 2 lbs of Mazola, while the same amount of lard cooked only 7 lbs. 14 oz. of potatoes.

Also, of doughnuts, Mrs Andrea fried 208 m 2 lbs of Mazola, while 2 lbs of lard fried only 138 doughnuts.

No wonder Mazola is acclaimed by more than seven million housewives, and that it is found universally in the best hotels, clubs and dining cars of leading railroads.

The plan is plainly the evolution of some theorists who have meaged knowledge of the laws of economics and business and fittle or no exper-ience in the actual production and marketing of coal. It can be regarded as nothing more than one of the many cure-alls that are being pre-cribed by the army of unskilled economic doctons who have found in the present disturbed conditions an opportune liting to exploit their nostrums. # Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so igreeable and so natural that you do not reaste that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

# Do You Spend Money for Clothes—

Ordovor invest natheni?

There is a flitterere. It dopinds on whither you buy you a business

tine business man of my acquaintance puts it this way

First nessays Thave found that burning Largain clothes neares pending nones foolishly. Even when they are new cheap clothes nake a man look cheap. Then in a little which, they become seedy and shabby and the only cure is a new suit

i and that one good suit is an investment, two poor ones are an

But I find uso that paying a fancy piles in any proding in mevrook his. There is only a certain amount of value that can be put into pure all-wool labric, good trimmings up o-date style first-class you muchip Money paid for these is invested. Money paid for any-has beyond these is spent.

I find too, that it pays to be able to alternat any suits. A suit orn tealer day after day does not give as good says eastwo suns worn tu n, id u n-about

This man's policy has led him say ght to moshop. Here he make the many that spell investment. He fluds Detmor Woolens the finest ha are manufactured, they are the standard of quality and 100%, all the finds a wide range of choice it falties to sun his taste to ve manche light degree of variety. He flids good trimmings, in -torate a vicia of first class workmarship.

This man is considered remarkably well die sed, and yet some of his charks spend more money for their clothes if in he does. The dartenence is that his money is invested weels

suppose you figure out now the amount you pay for clothes then vhen you to real by stop it and see me. We vill discuss how the amount can be invested to teturn the biggest dividends in clothes-value and lothes extisfaction. There is no obligation involved, but you can readily se that if I can ofter you a better investment than you are nakthe now it is to your interests even more than none to take advantage
